To Whom It May Concern

**Testimonial for Li Yinduo (E02695857)**

Yinduo joined Temasek Polytechnic School of Informatics & IT in 2014 to pursue a Diploma in Information Technology.

Yinduo was assigned to Acronis Asia Pte Ltd as part of the Polytechnic's Student Internship Programme. During the course of the internship, Yinduo was assigned to evaluate the Application Performance Monitoring (APM) system, which is a logging system and data analysis tool. Yinduo picked up skills in using APM which enabled him to complete the project within the given timelines. His supervisor commended him on his commitment at Acronis Asia Pte Ltd, as well as for his great team work and enthusiasm.

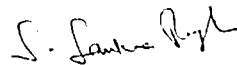

In the final year at the Polytechnic, Yinduo worked on a project which required him to automate the Student Internship Online Portal, which is used to allocate students for their internship. It also enables companies to submit student requests and allows their Liaison Officers to monitor students' progress and performance online. Yinduo picked up skills such as MVC framework which enabled him to complete the project within the given timelines. Yinduo also has successfully passed the certification exam for "Scrum Fundamentals Certified Credential".

Yinduo has shown a high level of commitment to the tasks he has undertaken. He is a polite and reliable student.

We are confident that Yinduo will do well in his future endeavours and contribute significantly to the organisation that he joins.
